# Some questions & answers

## Why are we carrying out this survey?

It is part of the Department of Health's work to improve services across the NHS by offering more choice to patients about their medical treatment. We are carrying out this survey to find out if your GP talked to you about a choice of hospital at the time of your referral.

## Do you have to take part?

Taking part is completely voluntary, so you don't have to. But we do hope you will take part, as this will give us the best possible picture of how people are referred to a specialist for treatment, by their GP.
